

**DPW - Engineering, Special Projects, WisDOT, and Private Utilities
have the following projects under way this week:**

Pavement Contracts:

Pavement Repair 2018

Work will be on numerous streets throughout the city. No on street parking restrictions or road closures will result from this work lasting overnight.

CD Contracts:

None at this time

Sewer Contracts:

Sewers 6-18 N. Webster Avenue (East River Bridge to Radisson Street)

Work under this contract will consist of storm sewer, sanitary sewer, and water main construction. N. Webster Avenue, from University Avenue to Cedar Street, will be closed to all traffic.

From Radisson to University the road is closed to through traffic for the duration of the project. Local access will be provided one lane in each direction on the east side of N Webster Avenue. Alleys will be closed to Webster Avenue on the east side of Webster Avenue. A detour route has been posted via Radisson Street to Quincy Street to University Avenue to Main Street

Parks Contracts:

None at this time

Traffic Projects:

Traffic Signal Repair 2018 (Ashland Avenue & Walnut Street Intersection and Radisson Street and N Webster Intersection)

Work on this project will consist of replacement of existing traffic signals and associated sidewalk reconstruction. No on street parking restrictions or road closures will result from this work but there will be temporary lanes closures on both intersections

Bridge Projects:

None at this time

WisDOT Projects:

None at this time

Utility Projects:

Green Bay Water Utility

None at this time

Miscellaneous Projects:

None at this time
